

**STATEMENT OF ADDITIONAL INFORMATION  
FOR  
INTERNATIONAL STRATEGIC EQUITIES PORTFOLIO**

**Dated September 4, 2020**

**Acquisition of the Assets and Assumption of the Liabilities of  
International Portfolio and Tax-Managed International Portfolio of Sanford C. Bernstein Fund, Inc.  
By and in Exchange for Shares of International Strategic Equities Portfolio,  
A Series of Bernstein Fund, Inc.**

This Statement of Additional Information (the “SAI”) relates to the proposed reorganization (the “Reorganizations”) of each of the International Portfolio and the Tax-Managed International Portfolio (together, the “Acquired Portfolios”), each a series of Sanford C. Bernstein Fund, Inc. (“SCB Fund”), a Maryland corporation, into the International Strategic Equities Portfolio (the “Acquiring Portfolio,” and together with the Acquired Portfolios, the “Portfolios”), a series of Bernstein Fund, Inc. (“Bernstein Fund”), a Maryland corporation.

This SAI contains information which may be of interest to shareholders of each Acquired Portfolio relating to the applicable Reorganization, but which is not included in the Combined Prospectus/Proxy Statement dated September 4, 2020 (the “Prospectus/Proxy Statement”). As described in the Prospectus/Proxy Statement, the Agreement and Plan of Reorganization would involve the transfer of the assets and all of the stated liabilities of the Acquired Portfolios in exchange for shares of the Acquiring Portfolio. Each Acquired Portfolio will distribute the Acquiring Portfolio shares it receives to its shareholders in complete liquidation of the Acquired Portfolio.

This SAI is not a prospectus, and should be read in conjunction with the Prospectus/Proxy Statement. The Prospectus/Proxy Statement has been filed with the Securities and Exchange Commission, and is available by calling at (800) 227-4618 or by writing the International Strategic Equities Portfolio at 1345 Avenue of the Americas, New York, New York 10105.

Capitalized terms used in this SAI and not otherwise defined herein have the meanings given them in the Prospectus/Proxy Statement.

## **ADDITIONAL INFORMATION ABOUT EACH ACQUIRED PORTFOLIO AND THE INTERNATIONAL STRATEGIC EQUITIES PORTFOLIO**

For each of the International Portfolio and the Tax-Managed International Portfolio: Incorporated by reference is the [Statement of Additional Information for SCB Fund in the Registration Statement on Form N-1A of SCB Fund dated January 28, 2020 \(SEC File No. 033-21844\)](#), as filed with the Securities and Exchange Commission. For the International Strategic Equities Portfolio: Incorporated by reference is the [Statement of Additional Information for Bernstein Fund in the Registration Statement on Form N-1A of Bernstein Fund dated January 28, 2020, as filed with the Securities and Exchange Commission \(SEC File No. 333-207065\)](#).

## **FINANCIAL STATEMENTS**

For each of the International Portfolio and the Tax-Managed International Portfolio, this SAI incorporates by reference the [Annual Report to Shareholders of SCB Fund for the fiscal year ended September 30, 2019 \(SEC File No. 811-05555\)](#) and the [Semi-Annual Report to Shareholders of SCB Fund for the six-month period ended March 31, 2020 \(SEC File No. 811-05555\)](#), each of which has been filed with the Securities and Exchange Commission.

The Annual Report and Semi-Annual Report contain historical financial information regarding the relevant Portfolio(s). The financial statements and the report of the independent registered public accounting firm in [\(i\) the Annual Report to Shareholders of SCB Fund, with respect to each of the International Portfolio and the Tax-Managed International Portfolio \(filed via EDGAR on December 6, 2019, SEC File No. 811-05555\)](#); and [\(ii\) the Semi-Annual Report to Shareholders of SCB Fund, with respect to each of the International Portfolio and the Tax-Managed International Portfolio \(filed via EDGAR on June 5, 2020, SEC File No. 811-05555\)](#), are incorporated herein by reference.

The unaudited pro forma portfolio of investments and pro forma statement of assets and liabilities reflect financial positions as if the transaction occurred on March 31, 2020. The unaudited pro forma statement of operations reflects expenses for the twelve months ended March 31, 2020. The unaudited pro forma financial statements give effect to the proposed exchange of shares of the Acquiring Portfolio for the assets and liabilities of each Acquired Portfolio, with the Acquiring Portfolio being the surviving entity. The consummation of each Reorganization is intended to qualify for U.S. federal income tax purposes as a tax-free reorganization under the Internal Revenue Code of 1986, as amended. The historical cost basis of the investments is carried over to the surviving entity. If a Reorganization is approved with respect to an Acquired Portfolio, a significant portion of the portfolio holdings of the Acquired Portfolio will likely be sold in connection with the applicable Reorganization. If AllianceBernstein L.P. (the “Manager”) does cause an Acquired Portfolio to dispose of such securities, transaction costs in restructuring the portfolio holdings of the Acquired Portfolio prior to the closing of the Reorganization will be borne by the Acquired Portfolio and its shareholders prior to the closing of the applicable Reorganization; however, transaction costs in restructuring the portfolio holdings of the Acquiring Portfolio immediately following the closing of the applicable Reorganization will be borne by the Acquiring Portfolio and its shareholders. The Manager, however, has advised that these costs are not expected to have a material impact on the net asset value of the Acquiring Portfolio. The Manager also has advised that none of the Acquired Portfolios or the Acquiring Portfolio will dispose of holdings in the applicable Portfolio to such an extent that it would adversely affect the tax-free nature of the applicable Reorganization for federal income tax purposes (but any gains on the sale of holdings could trigger taxable distributions).

Unaudited pro forma financial statements are provided on the following pages. Pro forma numbers are estimated in good faith and are hypothetical.

Prior to the Reorganization, each Portfolio paid a management fee at an annual rate of 0.75% of the first \$2.5 billion, 0.65% of the next \$2.5 billion, and 0.60% in excess of \$5 billion of each Portfolio's average daily net assets.
- (e) The adjustment reflects a decrease shareholder servicing fees - the classes of the merging funds that had servicing fees moved into a class that did not have servicing fees as a result of the Reorganization.
- (f) The adjustment reflects the elimination of the Tax-Managed International Portfolio's and International Portfolio's custodian fees as a result of the Reorganization; the custody fee of the International Strategic Equities Portfolio was increased due to an increase of security holdings post-merger.
- (g) The adjustment reflects an increase in transfer agent fees for the Non-Retail Class as a result of the Reorganization. The International Strategic Equities Portfolio does not, and will not as a result of the Reorganization, have Class A, Class B, or Class C shares.
- (h) The adjustment reflects the elimination of the Tax-Managed International Portfolio's and International Portfolio's Class A, Class B, and Class C distribution fees as a result of the Reorganization.
- (i) The adjustment reflects the elimination of the Tax-Managed International Portfolio's and International Portfolio's auditing and tax fees as a result of the Reorganization.
- (j) The adjustment reflects the elimination of the Tax-Managed International Portfolio's and International Portfolio's registration fees as a result of the Reorganization and an increase in International Strategic Equities Portfolio's registration fees to account for possible additional share registration fees.

- (k) The adjustment reflects the elimination of the Tax-Managed International Portfolio's and International Portfolio's printing fees as a result of the Reorganization and an increase in International Strategic Equities Portfolio's printing fees due to increase in net assets.
  - (l) The adjustment reflects the elimination of the Tax-Managed International Portfolio's and International Portfolio's miscellaneous fees as a result of the Reorganization; International Strategic Equities miscellaneous fee increased due to increase in net assets.
  - (m) The adjustment reflects a decrease in reimbursement; the only remaining reimbursement will be with respect to investments in the affiliated money market fund.
  - (n) Effective as of June 18, 2020, all Class C shares of the Tax-Managed International Portfolio were redeemed or converted to Class A shares, and effective June 19, 2020, Class C shares of the Tax-Managed International Portfolio are no longer offered.
- \* Does not reflect the estimated Reorganization costs of \$370,000, which will be assumed by the Tax-Managed International Portfolio, the International Portfolio and the International Strategic Equities Portfolio prior to the Reorganization.

**NOTES TO PRO FORMA COMBINED FINANCIAL STATEMENTS AS OF MARCH 31, 2020  
(UNAUDITED)**

**Note 1 – BASIS OF COMBINATION**

The Pro Forma Combined Statement of Assets and Liabilities, including the Portfolio of Investments at March 31, 2020, and related Statement of Operations (“Pro Forma Statements”) for the periods ended March 31, 2020, reflect the accounts of the Acquired Portfolios and the Acquiring Portfolio.

The Pro Forma Combined Statement of Assets and Liabilities has been restated to reflect a tax free exchange of the following shares of the applicable Acquired Portfolio for whole and fractional shares of equal dollar value of the Acquiring Portfolio according to the chart set out below.

**Shareholders of International Class and/or Tax-Managed International Class: The share class of the Acquiring Portfolio that you will receive depends on the eligibility requirements set out in footnote \*\* in the following chart:**

Acquired Portfolios—Share Class Exchanged	Acquiring Portfolio—Share Class Received
Class A	SCB Class
Class C*	SCB Class
Class Z	Class Z
International Class / Tax-Managed International Class	Advisor Class (if applicable**) or SCB Class

\* *Class C shares of the Tax-Managed International Portfolio are no longer offered. References herein to Class C shares of the Acquired Portfolio(s) relate solely to Class C shares of the International Portfolio.*

\*\* *The following clients of BPWM will receive Advisor Class shares: (i) clients who are subject to the global fee schedule for investment management services (generally, all clients with discretionary accounts who became clients in 2009 or thereafter and earlier clients who have adopted the global fee schedule); and (ii) clients investing at least \$3 million in a Portfolio of SCB Fund or Bernstein Fund.*

The Pro Forma Statements give effect to the proposed transfer of all assets and stated liabilities of the Acquired Portfolios in exchange for shares of the Acquiring Portfolio. As a result of each Reorganization, the Acquiring Portfolio is the surviving portfolio.

The Pro Forma Statements should be read in conjunction with the historical financial statements of the Portfolios included in their respective Statements of Additional Information.

**Note 2 – PORTFOLIO VALUATION**

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value” as determined in accordance with procedures established by and under the general supervision of the applicable Board of Directors of the Portfolio.

In general, the market values of securities which are readily available and deemed reliable are determined as follows: securities listed on a national securities exchange (other than securities listed on the NASDAQ Stock Market, Inc. (“NASDAQ”)) or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the last traded price from the previous day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities listed only on NASDAQ are valued in accordance with the NASDAQ Official Closing Price; listed or over the counter (“OTC”) market put or call options are valued at the mid-level between the current bid and ask prices. If either a current bid or current ask price is unavailable, the Manager will have discretion to determine the best valuation (e.g., last trade price in the case of listed options); open futures are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short term securities that have an original maturity of 60 days or less, as well as short term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the Valuation Committee (the “Committee”) must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates. Fixed-income securities, including mortgage-backed and asset-backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker-dealers. In cases where broker-dealer quotes are obtained, the

Manager may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security. Swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties. Open end mutual funds are valued at the closing net asset value per share, while exchange traded funds are valued at the closing market price per share.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value as deemed appropriate by the Manager. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Portfolios may use fair value pricing for securities primarily traded in non-U.S. markets because most foreign markets close well before the Portfolios' value their securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities. To account for this, the Portfolios generally value many of their foreign equity securities using fair value prices based on third party vendor modeling tools to the extent available.

### Note 3 – FAIR VALUE MEASUREMENTS

In accordance with U.S. GAAP regarding fair value measurements, fair value is defined as the price that the Portfolios would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability (including those valued based on their market values). Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Portfolios. Unobservable inputs reflect the Portfolios' own assumptions about the assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. Each investment is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Portfolios' own assumptions in determining the fair value of investments)

The fair value of debt instruments, such as bonds, and OTC derivatives is generally based on market price quotations, recently executed market transactions (where observable) or industry recognized modeling techniques and are generally classified as Level 2. Pricing vendor inputs to Level 2 valuations may include quoted prices for similar investments in active markets, interest rate curves, coupon rates, currency rates, yield curves, option adjusted spreads, default rates, credit spreads and other unique security features in order to estimate the relevant cash flows which are then discounted to calculate fair values. If these inputs are unobservable and significant to the fair value, these investments will be classified as Level 3. In addition, non-agency rated investments are classified as Level 3.

Where readily available market prices or relevant bid prices are not available for certain equity investments, such investments may be valued based on similar publicly traded investments, movements in relevant indices since last available prices or based upon underlying company fundamentals and comparable company data (such as multiples to earnings or other multiples to equity). Where an investment is valued using an observable input, such as another publicly traded security, the investment will be classified as Level 2. If management determines that an adjustment is appropriate based on restrictions on resale, illiquidity or uncertainty, and such adjustment is a significant component of the valuation, the investment will be classified as Level 3. An investment will also be classified as Level 3 where management uses company fundamentals and other significant inputs to determine the valuation.

The following tables summarize the valuation of the Portfolios' investments by the above fair value hierarchy levels as of March 31, 2020:
